# ABOUT US

## NATIONAL INSTITUTE OF INFORMATION & TECHNOLOGY EDUCATION (NIITE)

(राष्ट्रीय सूचना एवं प्रौद्योगिकी शिक्षा संस्थान)

AN ISO 9001:2015 CERTIFIED SKILL DEVELOPMENT TRAINING INSTITUTE,

**National Institute Of Information & Technology Education** is a India's Leading Skill Development Training Institute. to focus on skill development activities to contribute towards nation building by bridging the skill gap demand & supply, in line with Government of India's Skill India Mission.

**National Institute Of Information And Technology Education (NIITE)** is a unit of training center of Am Global IT And Vocational Education to make youth of India 'SAKSHAM' (capable) of achieving their goals in life by becoming skilled professionals. This Ideology has no borders and boundaries. SAKSHAM is working to bring World Class Skill Development Training to India through partnerships with various corporates and other organizations.

We Promote Quality Education, Training And Research in The Field **IT, AGRICULTURE BANKING, INDUSTRIAL, HEALTH, PROFESSIONAL AND VOCATIONAL Etc.**

**National Institute Of Information & Technology Education** has been established with a primary objective to enhance skills of youth of India to meet the growing demand of modern industrialization in India. We realized that while Skill Development was required in our country to ensure that the population was productively deployed, its perception in the eyes of the people has been continuously deteriorating due to the kind of low paying jobs that people got, exploitation and the limited career growth opportunities. While this scenario was true a few years back today Skill Development Trained students are amongst the most sought after due to the requirement of fresh hands in the industry.

## ● DEPARTMENT OF NURSERY TEACHER'S TRAINING

c course also known as NTT is a diploma course for teachers who want to teach and cater to the student at nursery level or pre-primary level. This teacher workforce has to undergo the training of the general TT course where the teacher joins the workforce of several other pre-school teachers. The NTT course helps the students who aim to be pre-school teachers in order to facilitate young minds of nursery children. The course provides various methodologies to the teachers who undergo this TT course which is required in teaching the young students that will be essential in the physical, cognitive and social development. There are also several methodologies which are taught to the teachers to better understand their job roles and enact them in life. Some of the important subjects taught are instructional strategies, child psychology, classroom management and cognitive development. There are certain standards in NTT course like that of national and international standards which are highlighted in the course fees of various institutes.

The teachers are enlightened with all subjects and communication at nursery level which are better understood by young minds. Teachers need the best training methodologies as it is important to ensure that the basics of the student, who has just stepped into the world of formal education, are clear. The teachers are seen to be role models in molding morals, habits and character into these young minds and therefore require utmost communication skills in order to be an accomplished Nursery teacher.

## ● NATURE OF JOBS/ROLES, GROWTH PROSPECTUS & SALARIES

The job opportunities for the Diploma holders in NTT training are very specific like that of Nursery in-charge, Nursery Teacher, or nursery department coordinator. There are further prospects for the diploma holders to study further in Masters of TT training, PG in Pre-school teacher training/primary school teacher training or can continue with their job opportunities in schools and pre-schools. The students of NTT also have opportunities in colleges where they themselves can teach and provide NTT training to students. Nursery blocks also provide employment to NTT students as Nursery teachers, Madam, In-charge or helper, Nursery Manager, Assistant pre-primary teacher, NTT/B.Ed Teacher and also as Home Tutors. The salaries provided to the NTT students are very area-specific depending upon whether they are working in an urban or rural demographic. The level of operation and expertise of the diploma holders also become one of the reasons for specifying their salary. International schools provide good salaries but ultimately a more experienced teacher gets paid more than fresher's. The table below shows some of the salary statistics and position of NTT diploma holders after TT training.

## ● DEPARTMENT OF AGRICULTURE

Agriculture is an academic discipline of science that involves the study of various scientific, technical and business subjects related to agriculture, horticulture, farm manager, poultry faeming, dairy farming, agricultural biotechnology etc. The scope of a career in Agriculture has grown tremendously in recent times with cutting-edge research and continue innovation in the industry with a bachelor's or master's degree in agriculture, students can secure high paying jobs in both government and private sector. They can be appointed as agriculture research scientists, agriculture officers, production manager, farm manager and so on. Interested students can also opt for job in the field of teaching, banking and insurance.

## ● DEPARTMENT OF FIRE SAFETY

Fires destroy property, cause injuries, and take lives. A fire in the workplace can also mean the termination of jobs, as many of the offices and factories destroyed by fire in Canada are never rebuilt. One of the key strategies to maintaining a safe workplace and preventing fires is fire safety training. With proper training workers can eliminate fire hazards and respond quickly and efficiently if a fire breaks out. Without proper training a small occurrence can quickly grow to become a major incident with devastating outcomes. Fire safety training can teach workers how to recognize fire hazards, conduct a fire safety risk assessment, prevent a workplace fire, and respond if a fire occurs.

## ● DEPARTMENT OF APPAREL

The Apparel Design course involves technical and artistic creativity for the fashion Industry, where apparel designers need to conceptualize, create as well as monitor the manufacturing of cloth. A person specializing in this stream works in the broad areas of the Apparel Industry such as Ready to Wear, Specialized Fashion, Active wear, Sports Wear, Functional Clothing (clothes specially designed for particular profession) etc. The course in Apparel Designing involves studying history of Costumes,

fashion designing, science and liberal arts, design management, fashion art and sketching, production of cloth, Apparel pattern making, different kinds of knitting, Computerized aided knitting, trends and forecasting for Apparel, Design Process, production and planning, retailing and marketing.

## ● DEPARTMENT OF VOCATIONAL

Vocational Education and Training (VET) is a job oriented technical training course for students and aspirants to choose a specific career opportunity. This job specific training is meant for a specified career and focuses mainly on providing students with hands on training, instruction and classes through which a student can gain a diploma or a certificate. Vocational training happens not only in automotive segment but also in hand trades and tourism. Such programmes also focus on mechanics, skill in retail, plumbing career and many. Through this training, aspirants can search specific jobs as they gain the certificate required for it. These trainings are done either in institutes, community colleges or in trade school. There are certain vocational schools that offer these programmes. classes can be of short unit ones or ten weeks or even lesser depending upon the subject.

## ● DEPARTMENT OF YOGA & NATUROPATHY

Certificate Course in Yoga and Naturopathy is a certified Yoga and Naturopathy programme. The course has been designed for meeting the demand of the growing need of experts in the fields of yoga, naturopathy, drug-less, therapies, meditation, inner and self-healing, non polluting human mind, holistic treatment, oriental medicine, integrated therapies besides mental health and psychoanalysis.

## ● DEPARTMENT OF IT & COMPUTER

Information Technology (IT) is the application of technology to solve organizational and business problems. This field of engineering uses computers, networks, storage, and other technical infrastructure both hardware and software, to deal with and manipulate information data. Information Technology (IT) professionals are adept with the latest emerging technologies, arriving at the most optimal (consuming least time and effort) solutions to any technical issues that may arise, small-scale or large. The responsibilities of an Information Technology department are many; professionals follow a combination of policies and processes to ensure IT systems run effectively and aligned with the organization's needs, they provide tech support, maintenance, device management and security testing services.

## ● DEPARTMENT OF BEAUTY & WELLNESS

Beauty & wellness programme is a training program for women in the beauty and wellness sector, largely focusing on life skills to make women with limited education more independent and occupation oriented. Women belonging to vulnerable communities, especially living in slums, migrants, having low education, many times have limited exposure to outside environment vis-a-vis occupation. They are usually engaged in household and childrearing responsibilities. They tend to lack self-confidence which is reflected in their day-to-day interaction with external world, especially when they have to express their opinion or open up about their experiences.
